

FOR IMMEDIATE RELEASE

Municipality of the District of St. Mary's Issues Expression of Interest for Pharmacy Services

Sherbrooke, NS – 1 May 2026

The Municipality of the District of St. Mary's has issued an Expression of Interest (EOI) to explore options for establishing a long-term pharmacy within the municipality.

The EOI invites submissions from qualified developers and development teams interested in supporting a sustainable pharmacy presence within the municipality. The process includes two key components: the development of a pharmacy and the potential use of municipal property.

Access to pharmacy services has been identified as an important priority for the community. Since 2025, pharmacy services have operated from a temporary modular location with limited capacity. The Municipality is seeking to better understand what viable, long-term solutions may be achievable through a fair and open process.

As part of this initiative, the Municipality may consider making property located at 8164 Highway 7 available for purchase, subject to Council approval and applicable legislative requirements.

"The purpose of this process is to understand what options are available and support a sustainable path forward for pharmacy services in our community," said James Fuller, Warden of the Municipality of the District of St. Mary's.

The Municipality is not seeking to partner directly with a pharmacy operator. Proponents will be expected to establish any required relationships with pharmacy retailers or operators independently.

Submissions are due by 4:00 p.m. on June 19, 2026. Additional information, including submission requirements and timelines, is available on the Municipality's website at this [link](#).
